## SUMMARY

---

I studied information management for 6 years. Now, I do programming almost every day. I am a quick learner and problem solver who can handle the schoolwork and use spare time to learn programming, work and participate competition. I have ability to resolve the problem I encountered in the pass. Also I believe I can handle the challenges I will meet at work.

## EDUCATION

---

**National Cheng Kung University** 2014.9 - 2016.7

Master of Information Management

Thesis: Online Consumers' Perceived Risk During Purchasing Process with Different Background on Second-hand Products: An Eye-Tracking Approach. ([goo.gl/xlkhFm](https://goo.gl/xlkhFm))

## EXPERIENCE

---

2015.8 - 2016.7

**Dept. of Physical Education, NCKU**

Website Design Assistant

- Developing websites used CSS and HTML and 1 questionnaire website used php.
- Maintaining NCKU PE official issues website and the web server.

**Dept. of Industrial and Information Management, NCKU** 2014.9 - 2015.2

Course Assistant of Window Software Design

- Handling affairs related to the course.
